

Dentons Permitted Assets

A principal feature of our self invested pension plans is the flexibility they provide when it comes to investment options. The extensive range of opportunities is listed below.

Permitted assets

We consider the following assets to fall under this category:

Funds and equities

- > Stocks and shares listed or dealt on any HM Revenue & Customs (HMRC) recognised stock exchange, including:
 - > equities
 - > fixed interest securities issued by governments or other entities
 - > debenture stock and other loan stock
 - > permanent interest bearing shares
 - > convertible securities.
- > Alternative Investment Market (AIM)*

- > Offshore funds recognised by the Financial Conduct Authority (FCA)
- > Trustee investment bonds
- > Authorised unit trusts that do not hold residential property
- > Shares in investment trusts
- > Authorised open ended investment companies (OEICs).

*Although the AIM market is not regarded as a recognised stock exchange, we treat AIM listed shares as a standard asset and therefore there is no restriction on the amount that can be held. However, before we will accept AIM shares within our schemes, they must be referred to our Technical Manager for approval.
