

We're self invested  
pension specialists.

Capability on every level.

## Strong.

Strength comes from solid foundations and financial stability.

With over 40 years' experience, Dentons has gained a reputation as a professional, knowledgeable and efficient self invested pension administrator. We have a strong track record of profitability and financial stability. It's why we currently administer over £7.5bn of assets.

With robust due diligence processes we have controlled exposure to non-standard assets such as unquoted equities and unregulated collective investment schemes (UCIS).

## Intelligent.

Technical expertise, dedicated pension consultants and in-depth pension knowledge.

Each of our pension consultants has on average over 25 years' experience in financial services so they're experts at dealing with complex investments and transactions, including property purchase.

As a result of managing over 3,500 commercial properties within our SIPP and SSAS portfolios, we offer a number of valuable features:

- › joint property transactions with other providers and/or individuals/companies
- › flexibility for clients to choose their own qualified professionals - solicitor, valuer or lender
- › freedom for clients to manage their own commercial property.

## Flexible.

We understand that everyone's different: we tailor our service to individual client needs.

We've developed one of the most flexible pension vehicles in the market - from simple investment strategies to complex property transactions. With transparent fees and flexible retirement options, we've got it covered.

Using feasibility discussions augmented with information from specific investment questionnaires, we take a prudent approach within the regulatory framework to protect client assets. Our disciplined way of monitoring non-standard and sophisticated investments through our internal investment committee is supplemented with the services of an external third party due diligence provider.

## Dedicated.

As your trusted partner, we believe in long term relationships. Our aim is to provide continuity of a committed client service.

Clients are allocated one of our pension consultants and their skilled team of pension administrators who will cover all SIPP and SSAS requirements. It's why we've developed detailed internal monitoring processes that adhere to the FCA's 'treating customers fairly' regulations.

Dentons prides itself on providing exceptional customer service and since 2012 Dentons has received recognition of its five star service through the Financial Adviser Service Awards as voted by advisers. Dentons remains financially strong and stable.

## Connected.

Delivering choice and control.

We offer the latest technology to enable advisers and clients instant online access to their most up-to-date investment valuations, along with details of contributions and transfers, benefits (where applicable), online illustrations, the ability to download client specific documents including bank statements and live links to certain platforms.

We are also the first SIPP provider to offer an integrated SIPP valuation service to Intelliflo's Personal Financial Portal.

Our online SIPP application and various investment questionnaires pre-populate repeated fields, working through relevant sections and keeping control of the process. E-signatures can also be used with many of our documents to speed up the application process.

*"I have been very impressed by the highly professional and commercial service (and I'm not easily impressed!)."*

**A very satisfied customer.**
